Under the project Teaching Learning Centre (TLC) at IIT Bombay, a scheme of 'Pandit Madan Mohan Malaviya National Mission on Teachers and Teaching' (PMMNMTT), an initiative of the Ministry of Human Resource Development, Government of India

**Introduction**

IIT Bombay has conducted many large-scale teacher training workshops under the Train 10,000 Teachers (T10KT) programme, sponsored by the National Mission on Education through ICT (NMEICT), MHRD, Govt. of India, and trained over 2,00,000 teachers.

Another successful technology developed at IIT Bombay is Spoken Tutorial, using which about 50 lakh students have been trained on various ICT topics. The effectiveness of this method can be seen from the testimonials available here: <https://spoken-tutorial.org/testimonials/media/7088-70>. The Spoken Tutorial project is also implemented successfully at IIT Bombay, with funding from NMEICT, MHRD.

It is now proposed to offer the highly effective Spoken Tutorial based ICT training to a large number of teachers, across the country, through the T10KT methodology, with Moodle training being taken up next. Moodle is a popular Free/Libre and Open Source Learning Management System (LMS). Moodle is extremely useful to teachers to organise their course, interact with students through forums, organise quiz, do the grading, etc. It is very useful to teachers at all levels: from schools to colleges. It is also available free of cost.

The Moodle workshop is organised by the Teaching Learning Centre (ICT) at IIT Bombay, under the scheme of the Paradiit Madan Mohan Mahavya National Mission on Teachers and Teaching (PMMNMNTT), MHRD, Govt. of India. As Spoken Tutorial method offers hands on practice, with 100% active learning, teachers who undergo this training will be able to start using Moodle immediately after the workshop.

The one day Moodle workshop will be conducted on Friday, 15 March 2019, through 106 Remote Centres of T10KT.

This training will be provided to two kinds of participants:

- I. **Teachers:** They will be given training on how to use Moodle and to create and deliver courses online to their students. More details of this are given in the topic list.

- II. **System administrators:** They will be given training on Moodle installation, and how to configure and set-up Moodle.

**Methodology of the Workshop**

It will be a one day workshop, on 15 March 2019. All participants will have to go to their chosen Remote Centre. They will learn Moodle through Spoken Tutorials, with help from Coordinators, already trained for this purpose at IIT Bombay. As the learning will happen only through carefully designed Spoken Tutorials at IIT Bombay, the quality of learning will be very high. All the participants, from all the Remote Centres, will be able to interact with the Moodle team at IIT Bombay, ask them questions, etc., through the video conferencing software A-VIEW. There will be about 4 hours available for Moodle training and 2 hours for interactions.

**Teaching faculty:**

- Prof. Kannan Moudgalva, Principal Investigator, TLC (ICT), and Spoken Tutorial project, IIT Bombay
- Ms. Nancy Varkey, Spoken Tutorial Project, IIT Bombay
- Mr. Nirrula Venkat, Spoken Tutorial Project, IIT Bombay

**Course content**

Moodle is a learning management system (LMS in short) which helps teachers and educators create online courses for adaptive and customized learning. Developed in 2002, it is a free/libre and open source software and is being used by many small and large institutions to create and deliver courses online to their students. Moodle has many built-in features ranging from the basics such as file upload, assignments, quizzes, notifications and advanced features such as forums, quizzes, wiki, etc. that can be used by learners. It also has many easy-to-install plug-ins such as attendance, reminders, analytics, etc., to supplement these features.

Following topics will be covered for System Administrators in this workshop:

- Getting ready for Moodle installation
- Installing Moodle on Local Server
- Admin Dashboard
- Blocks in Admin Dashboard
- Categories in Moodle
- Courses in Moodle
- Users in Moodle
- User Roles in Moodle

Following topics will be covered for Teachers in this workshop:

- Teachers Dashboard in Moodle
- Course Administration in Moodle
- Formatting Course material in Moodle
- Uploading and Editing resources in Moodle
- Forums and Assignments in Moodle
- Question bank in Moodle
- Quiz in Moodle
- Enroll Students and Communicate in Moodle

Please note that the medium of instruction for this workshop is English. Language dubbed Spoken Tutorials in Hindi and a few other languages will also be available.

**Course Fee**

Every participant (both Teachers and the System Administrators) has to pay Rs. 100 as the course fee to IIT Bombay at the time of online registration. On the day of the workshop, i.e., on 15 March 2019, they have to pay Rs. 400 to the Remote Centre that they would be attending, to defray the cost of organising the workshop, lunch, and coffee/tea.

Please note that the registration fee once paid is neither refundable nor adjustable under any circumstances.

**Who should attend?**

As this workshop is not subject-specific, teaching faculty from all domains (engineering, sciences, commerce, art, management, medicine, law, etc.) and also from polytechnic colleges and schools, can attend. Teachers registered in a Masters or a PhD programme, during their employment as a teacher, can also participate.

**Criteria for issuing Certificates**

E-certificate will be provided to the participants after successful completion of the workshop and filling up the feedback form.

**Duration and Venue**

The workshop will be conducted on Friday, 15 March 2019 from 9.30 AM to 6.00 PM at 106 Remote Centres of IIT Bombay. This workshop will be conducted through a blended mode, using both live video conferencing facility (A-VIEW) and hands-on sessions using Spoken Tutorials. A detailed workshop schedule will be available soon.

**How to apply?**

Enrollment will be strictly online, and no other mode of application will be entertained. The last date of registration is 14 March 2019, 12.30 pm. The URL for registration is: <http://www.iitb.ac.in/meic/announcements.html>

**Register on the Spoken Tutorial Website:**

1. Before the workshop, participants should register on <https://spoken-tutorial.org/>
2. Fill up the registration form and submit.
3. An email will be received.
4. The account should be activated by clicking the link in the email.
5. The Username and Password should be noted. This is an extremely important step. One needs this information to post questions on the forum, which will be explained at the time of the workshop.

**Note**

Neither IIT Bombay nor the Remote Centre will bear the travel expense of the participating representatives. There shall also be no accommodation provided to the participants. All participants are required to bring car phones, as they will have to listen to video tutorials. Without car phones, the workshop will not at all be effective.

As this workshop is mainly hands-on, it is mandatory for all System Administrators to bring a laptop and ear phone when they come to the workshop. System administrators will be required to install Moodle software on their machines during the workshop. All system administrators will also be required to download the Moodle software before they come to the workshop. Instructions for this will be mailed separately.

Dear Sir,

Greetings from Mahatma Gandhi National Council of Rural Education (MGNCRE), Department of Higher Education, Ministry of Education, Government of India!

We are happy to note that your Institutional initiatives for development have been highly progressive and motivating and we appreciate your key role in this endeavour.

At the behest of the Ministry of Education, MGNCRE has taken on the onus of strengthening the process of teaching and learning with institutional systems and processes. Also, as per NEP 2020 guidelines, there is a need of faculty who can adapt to the rapidly evolving learning environment. MGNCRE is the forerunner in various path breaking activities including propelling Rural Entrepreneurship Development (RED) activities.

Gandhiji's thoughts on village self-reliance or Athmanirbhar Bharat focus on village economic activities. The methodology helps in promoting entrepreneurship opportunities in manufacturing and marketing rural products and rural services and exploring models of art, craft for entrepreneurship and for self-reliance. The purpose of management education is well realized through entrepreneurial learning. *The guiding principle of Entrepreneurship is "Education and work cannot be separated and without work, research, contribution, creative and critical thinking skills, we cannot create new knowledge."* A Cell promoting Entrepreneurship is essential as is a Placement Cell. In this regard, we will be conducting online workshops on Rural Entrepreneurship Development Cell (REDC) for Colleges of Management and Business Schools forming clusters of 10 institutions that will send the REDC Proforma. The workshops for the Management Colleges that submitted the REDC Proforma were held in clusters.

As a part of the registration process, you are required to fill in the attached proforma which makes five faculty members as team leaders for **1. Internship and Apprenticeship with Rural Enterprises 2. Initiating Rural Entrepreneurship 3. Networking with Rural Manufacturers 4. Developing Rural Technological Interventions 5. Grooming students to be Rural Entrepreneurs**. Each Institution will be awarded an **Institutional Certificate of Recognition** after the workshop and on submission of the REDC proformas through email at [redcmh2020@gmail.com](mailto:redcmh2020@gmail.com). This will formalize and enable the process of institutionalizing REDC in the B Schools and Business Management Colleges. The dates of the workshops for the clusters will be intimated as soon as the filled-in proformas are received.

Our Program Coordinator Mrs. Manisha Karape (Ph No. 9550771197) can be reached for all clarifications. Kindly fill the proforma and send it to [redcmh2020@gmail.com](mailto:redcmh2020@gmail.com).

We thank you in advance for your contribution to this national endeavour and look forward to your earliest response in this regard.

Thanking you,

Yours sincerely,  
Dr. W G Prasanna Kumar

## Report on Research Methodology.

On 17/05/2022 i.e. Tuesday, sir asked the students who were present on Saturday, to explain the absent students 'Research Protocol'. This was sort of group activity, where sir asked us to divide in groups & allotted one student (present) to each group (absent).

I was the mentor for group of 7 girls in total. I firstly told them to open the slideshare which is present or posted on sarangbhala.com website. Afterwards I told them to open Slideshare on Research Protocol. The slideshare was related to the framework of the ~~the~~ research.

I then started explaining them all the protocol or slideshare, step by step.

First I explained them the introduction point. Where, I told them that in the introduction, all the background of your research problem should be included. And your introduction should be in detail.

Then I further moved to the second point i.e. Research / management problem. In that point I told them that here, all the information about your problem should be included. Though it maybe be a social problem or management problem. You should

I also told them that you should first identify your problem thoroughly, & frame questions

regarding to your problem. ~~who~~ And most importantly I told them that the answers of that questions must be unanswerable or not known.

Then I told them about statement of research. In that I told them to prioritize the questions.

In objectives I explained them that objectives should be related to the problem. A clear idea about the problem should be mentioned.

Then, in hypothesis I explained them the example sir gave us that was 'though girls are said to be academic toppers, the placement scenario is opposite i.e. boys get placed easily than the topper girls.

And then I explained the further points also with clear understanding.

After finishing, I asked everyone whether they have any doubts & solved the same.

At the end of the session, sir also asked to raise the questions if any & answered them.

It was indeed a best experience of teaching other students. It helped me to revise the concepts & understand it more clearly.

## Research - Import Substitute (Data)

### # 1<sup>st</sup> Discuss Introduction of Research.

\* What is import?

- - A product or service that brought into one country from another
- To buy goods, etc. from a foreign country and bring them into your own country.

\* Research motto - Import substitution is the idea that blocking imports of manufactured goods can help an economy by increasing the demand for domestically produced goods.

> Import Substitution (IS) generally refers to a policy that eliminates the importation of the commodity and allows for the production in the domestic market.

# 2<sup>nd</sup> Research problem:- Many countries protect their producers from international competition by way of tariffs, quotas and undervalued currency. The idea is to protect domestic industry so, that it can grow, which will, in turn, generate income & Employment for the residents, and the country will 'not have to be dependent on imports. India is high-based of export but import of India is high.

3<sup>rd</sup> Statement of Research: To study Import substitution to help and growth of Indian economy.

- 4<sup>th</sup> objectives -
- ① Import Substitution is intended to create jobs.
  - ② Reduce demand for foreign currency.
  - ③ Stimulate innovation.
