Sub: Report on Online Workshop on ERP and Java Programing

Dear Sir,

This is with above cited subject. An online One days workshop of 4 hours have been organized on the backdrop of placement interviews to orient students on ERP and Java Programming to BCA students.

10 students of BCA were participated in the said workshop. All these students were seeking placement services from placement cell of institute.

Request you to acknowledge the receipt of this report.

Thank you,

Yours faithfully,

Sarang Bhola

Enc.: The ppt delivered to the students.

00360

What is ERP?

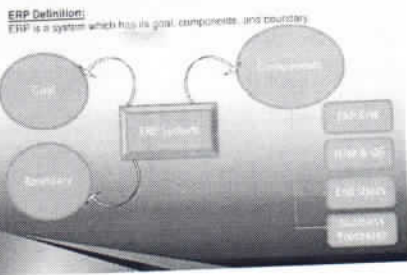

ERP is short for enterprise resource planning.
 An ERP system is an attempt to integrate all functions across a company to a single computer system that can serve all those functions' specific needs.
 Support business through optimizing, maintaining, and tracking business functions.
 From product planning, parts purchasing, inventory control, and product distribution, to order tracking.

ERP : Definition

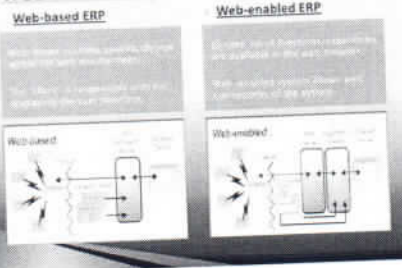

ERP is a set of integrated business applications, or modules which carry out common business functions such as general ledger, accounting, or order management.

IT software that integrates business activities across an enterprise

Enterprise Resource Planning (ERP)

Web Based ERP?

Impact of the internet on ERP systems

- PeopleSoft revealed a series Internet-based applications in 1997
- Oracle, the first ERP vendor to move its client/server applications to the Web.
- SAP's CEO Hasso Plattner personally christened mySAP.com
- In 1999, PeopleSoft 8: a suite of e-business applications
- The core ERP applications, are expanding to embrace strategic functions such as e-business relationships (EBR), supply chain management (SCM) and e-commerce services.

WEB-based ERP Security

- Security Measures

- Limited access to the user using a role based model
- Prevents password crackers from breaking the security
- Encryption using SSL
- Only accessible options will be displayed on the screen
- Variable authorization system
- Maintenance package for checking security configurations
- Use of Cache cleaning software
